

SCIENTIFIC PROGRAM

Length of session
hours:minutes:seconds

00:06:25

Welcome

Prof. Lars Andersson and Dr. Eva Lauridsen

00:57:35

Dr. Nestor Tzimpoulas

Vital pulp therapy in permanent teeth with complicated crown fractures - Clinical considerations and future perspectives

00:51:00

Dr. Nitesh Tewari

Rebonding crown fracture and crown-root fractures

00:42:29

Dr. Helén Isaksson

Why is treatment of root fractures unpredictable?

00:32:22

Dr. Josephine Solgaard

Lateral Luxation – pulp healing in mature teeth

00:35:47

Dr. Georgios Tsilingaridis

Intrusion – Where are we today?

00:40:54

Dr. Eva Lauridsen

Avulsion and replantation – Where are we today?

00:48:41

Prof. Lars Andersson

Ankylosis - Replacement resorption - Decoronation

00:55:22

Prof. Hani Nazzal

The traumatized pulp between evidence and practice

00:34:29

Prof. Hani Nazzal

Regenerative Endodontics: Where do we stand?

00:45:52	Prof. Zafer Cehreli Revascularization from a clinical Perspective: The present and foreseeable future
01:06:24	Prof. Zafer Cehreli <i>Minimally-invasive esthetic treatment of demineralized and hypomineralized teeth.</i>
00:48:45	Prof. Zafer Cehreli <i>Treatment challenges with composite resins</i>
00:55:23	Prof. Liran Levin <i>Periimplantitis – All you want (or not) to know!</i>
00:15:37	Prof. Lars Andersson <i>WHO classification of Traumatic Dental Injuries</i>
00:52:27	Prof. Ece Eden <i>Emergency Recordings with a Novel Dental Trauma Index</i>
00:45:15	Dr. Kate Kenny <i>Developing a Minimum Dataset for Traumatic Dental Injuries</i>
00:06:59	Dr. Georgios Tsilingaridis <i>Can we have a standardized way to record Traumatic Dental Injuries (TDI) worldwide?</i>
00:26:24	Discussion
01:03:35	Patient cases
13:51:45	Total
