

SCIENTIFIC PROGRAM

DAY 1

WEDNESDAY, OCTOBER 2ND

COURSE DAY

| | |
|---------------|---|
| 09.00 | Welcome <i>Prof. Lars Andersson and Dr. Eva Lauridsen</i> |
| 09.00 – 10.30 | Dr. Mitsuhiro Tsukiboshi <i>Dr. Mitsuhiro Tsukiboshi sharing experience and practical hints from 40 years of experience of Tooth autotransplantation.</i> |
| 10.30 – 11.00 | Coffee Break |
| 11.00 – 12.30 | Dr. Mitsuhiro Tsukiboshi <i>Continuing</i> |
| 12.30 – 13.30 | Lunch |
| 13.30 – 15.00 | Dr. Mitsuhiro Tsukiboshi <i>Continuing</i> |
| 15.00 – 15.30 | Coffee Break |
| 15.30 – 16.30 | Dr. Mitsuhiro Tsukiboshi <i>Continuing</i> |

Please note that program is subject to changes

DAY 2

THURSDAY, OCTOBER 3RD

9.00 – 9.15

Welcome

Prof. Lars Andersson and Dr. Eva Lauridsen

Orthodontic Space Closure & Prosthetic Solutions after Tooth Loss in the Anterior Maxilla (Moderated by Dr. Ewa Czochrowska)

9.15 – 10.00

Dr. Ute Schneider-Moser

Orthodontic Space Closure VS Implant Treatment in the Esthetic Zone

10.00 – 10.45

Dr. Marco Rosa

Orthodontic space closure in the esthetic zone: effects on hard and soft tissues in patients with and without periodontal breakdown

10.45 – 11.15

Discussion

11.15 – 11.45

Coffee Break

11.45 – 12.45

Prof. Matthias Kern

Resin-Bonded Fixed Dental Prosthesis

12.45 – 13.45

Lunch

Tooth Replacement in the Anterior Maxilla (Moderated by Prof. Lars Andersson)

13.45 – 14.30

Prof. Simon Storgaard Jensen

Implant Treatment in the Anterior Maxilla

14.30 – 15.30

Dr. Dick Barendregt & Dr. Anna Louropoulou

Autotransplantation of Premolars to the Anterior Maxilla

Please note that program is subject to changes

DAY 2

THURSDAY, OCTOBER 3RD

15.30 – 16.00

Coffee Break

16.00 – 16.45

Prof. Christer Dahlin

Optimizing Implant Aesthetics in the Maxillary Region using GBR Technique

16.45 – 17.00

Oral presentation: Naomi Doelen and Jacqueline Surtea

Solving challenges in transitioning autotransplants in the anterior region.

17.00 – 17.30

Discussion

Please note that program is subject to changes

DAY 3

FRIDAY, OCTOBER 4TH

Autotransplantation & Implants to the Maxillary Anterior Region (Moderated by Dr. Christer Dahlin)

9.00 – 10:30

Dr. Ewa Czochrowska & Prof. Pawel Plakwicz

Autotransplantation to the Anterior Region-Success & Complications Related to Autotransplantation of Immature Teeth

10:30 – 11.00

Dr. Lars Pallesen

Optimizing Implant Esthetics in the Anterior Maxilla w/ Soft Tissue Augmentation

11.00 – 11.30

Coffee Break

11.30 – 12.30

Dr. Mitsuhiro Tsukiboshi

Autotransplantation & Long-term follow-up for 40 years

12.30 – 13.30

Lunch

13.30 – 14.30

Dr. Nicole Winitsky

Resin Bonded Fixed Dental Prosthesis or Single Implants-Special Considerations in the Anterior Maxilla in Young Adults

14.30 – 15.00

Discussion

15.00 – 16.20

Dr. Ivo Marek

Autotransplantation – biological solution to multiple missing teeth in adolescents with developmental dental disorders

16.20 – 16.30

Discussion

19.00

Symposium Dinner – *Only for participants with valid ticket!*

Please note that program is subject to changes

DAY 4

SATURDAY, OCTOBER 5TH

Evidence-Based Outcomes (Moderated by Prof. Pawel Plakwicz)

9.00 – 09:45

Prof. Peter Day

Experiences, Outcomes & Future Research Directions for Paediatric Tooth Transplantation

9.45 – 10.30

Dr. Martin Janda

Complications and Prognosis of Implant Treatment

10.30 – 11.00

Coffee Break

11.00 – 11.45

Dr. Ole Schwartz

Prognostic Factors for Successful Autotransplantation in the Copenhagen Material

11.45 – 12.15

Dr. Yousra Akhlef

Autotransplantation to the Maxilla-Patient-Reported Outcomes

12.15 – 13.00

Discussion

13.00 – 14.00

Lunch

14.00 – 14.15

Oral presentation: Justine De Visscher

In vitro investigations on the effect of the pulp harvesting method and cryopreservation on the viability of human dental pulp stem cells and their odontogenic differentiation potential.

14.15 – 14.30

Oral presentation: Romy Doomen

Aesthetic outcome and patient satisfaction of premolar autotransplantation to the anterior maxilla region.

14.30 – 14.45

Oral presentation: Jaime Diaz

Clinical outcomes and survival rates of transplanted permanent teeth in children & adolescents. Nine-teen years of experience at Universidad de La Frontera and public hospital in Temuco, Chile.

Please note that program is subject to changes

DAY 4

SATURDAY, OCTOBER 5TH

15.00 – 15.15

Oral presentation: Edwin Eggink

Predictability of endodontic treatment in the process of autotransplantation.

15.00 – 15.15

Oral presentation: Manfred Leunisse

Orthodontic preparation for successful tooth transplantation.

15.30 – 16.00

Oral presentation: Eduardo Yugo Suzuki.

Autotransplantation of Premolars with Complete Root Formation in the Aesthetic Zones: The Chiang Mai Protocol

16.00 – 16.30

Discussion

16.30 – 17.00

Concluding remarks and awards

POSTER PRESENTATIONS

SATURDAY, OCTOBER 5TH from 9.00 - 11.00

| | |
|---------------|---|
| 09.00 – 09.10 | Hussa AlBahar Dental Traumatic Injuries of an Adolescent Managed with Autotransplantation Using 3D-printed Replica and Pulp Therapy: A Case Report. |
| 09.10 – 09.20 | Rok Kosem Retention of coronal tooth fragment after non-healing cervical-mid-root fracture; a 15-year case report. |
| 09.20 – 09.30 | Aysha Alsaif Dental Interventions for Preventing Self-Inflicted Tongue Injuries in a Pediatric Patient with Behavioral Challenges: a Case Report. |
| 09.30 – 09.40 | Egita Benefelde Multidisciplinary dental trauma treatment in young permanent teeth: a case report. |
| 09.40 – 09.50 | Beatrice Williams "In Their Own Words": Families' Experiences with Tooth Autotransplantation for Replacement of Maxillary Incisors in Children. |
| 09.50 – 10.00 | Surian Herrmann Premolar transplantation in the esthetic zone |
| 10.00 – 10.10 | Sebastian Meinzer Canine Autotransplantation - Prospective clinical Study on Benefit of Adjunctive Antibiosis during initial healing |
| 10.10 – 10.20 | Petja Videmšek Tooth replacement after traumatic loss of three central incisors with zirconia ceramic resin-bonded bridges |
| 10.20 – 10.30 | Paulina Dembinski Eruption disturbances of permanent mandibular molars. |
| 10.30 – 10.40 | Michal Stefanatny Case report: Maxillary lateral incisor agenesis. Recipient site preparation using osseodensification burs. |
| 10.40 – 10.50 | Sophie Esmaty A stroke of luck: Displaced 3 becomes an upper 1 |
| 10.50 – 11.00 | Jessica Juslin Combining a Sinus Augmentation with Tooth Transplantation When ng Premolar in a Young Patient. |

ORAL PRESENTATIONS

SATURDAY, OCTOBER 5TH AUDITORIUM 2, from 11.00-13.15

| | |
|----------------------|---|
| 11.00 – 11.15 | Deise Cunha Use of Computer-aided planning and rapid prototyping in teeth autotransplantation at aesthetic zone to enable bone growth. |
| 11.15 – 11.30 | Georges El Achkar Unconventional approaches to treat challenging cases in Dental Traumatology. |
| 11.30 – 11.45 | Suhaila Al Bahlani Teeth Autotransplantation in a growing children where are we in Oman? Case series. |
| 11.45 – 12.00 | Russel Al-Hashimi Space creation for replacement of an unerupted upper central incisor using an upper removal appliance |
| 12.00 – 12.15 | Camila Corral Nunez Hidden Costs of Traumatic Dental Injuries Due to Police Violence: A Qualitative Study. |
| 12.15 – 12.30 | Leszek Bury Autotransplantation of matured teeth - impact on improving bone conditions in the recipient site: Case descriptions. |
| 12.30 – 12.45 | Mohamad Haziq Mohamad Zawawi Biological alternative for tooth replacement: case series on impacted maxillary central incisors and compromised first molars. |
| 12.45 – 13.00 | Marcel Linssen Implants and transplants, opposites or complementary? |
| 13.00 – 13.15 | Michal Novosad When tissues are going vertical with tooth transplantation. |
